

The Bee

THIRTEENTH YEAR

EARLINGTON, HOPKINS COUNTY, KENTUCKY, THURSDAY, APRIL 24, 1902

NO. 17

BRONCHO BILL *** The Cowboy Hero

BUT G. BARD.

(Continued from last week.)

The cry of anguish was emitted by Clubfoot Sue when she discovered the captive had escaped.

Spotted Tail and some of his braves were soon in pursuit of the fleeing girl, but she had nearly five hours start and had struggled on and on in the darkness over fallen trees, through tangled vines, saw briars and cactus plants until her feet were bruised and bleeding and her tender hands were torn.

Finally her strength gave out. Human nature could endure no more, and climbing to the top of a small mound, she lay there exhausted.

And thus they found her and carried her back to the camp. Spotted Tail saying, "Ugh! Hear brave squaw. Make me good wife."

Inez was one more placed in the hands of the Indian women and told if she made another attempt to escape, her life would pay the penalty. The poor girl was too thoroughly exhausted to do anything but moan and bewail her sad fate, but there was one thought that filled her with exaltation and caused her tired heart to accelerate its speed, and that was, somewhere on the wide plains of Texas Broncho Bill was camping on her trail and sooner or later he would find and rescue her or die in the attempt. This sweet certainty was as dear to her as the ruddy drops that were then visiting her sad heart.

And thus things continued until the night of the fourth day of her captivity.

On the night in question about the hour of midnight a silent figure might have been seen, if it had not been dark, stealing along from tree to tree in the direction of the camp. In one hand he carried a trusty Winchester and in his belt was a Spanish stiletto.

As he neared the camp he whistled a low, peculiar whistle something between the call of a wren and the chirp of a cricket.

A small, shapely head in the tent was quickly raised and held in a listening position, then the body was slowly and silently withdrawn, snake fashion until she was clear of the tent.

Inez had not neglected to wrap a bear skin around her slender form in order to conceal the diamonds she wore.

As she neared the edge of the clearing a manly form rose in front of her and she was clasped in the strong arms of Bronco William, who bore her silently and swiftly to the spot where Brutus was tethered to a swinging limb, then taking the bear-skin robe from her dainty form he cut it in pieces and wrapped and tied them around the feet of the noble steed, that the fall of the hoofs might not fall on the ever alert ears of the sleeping savages.

When the morning dawned they were far beyond the reach of the relentless foe, and e'er the sun had completed his course from the Occident to the Orient and was gliding down the western horizon, as was customary, the happy pair rode up and drew rein in front of the stately pile of adobe in which Inez first saw the light of day.

In a reasonable length of time their nuptials were celebrated in true western style. Bronco William was elected justice of

the peace in Mingo county and deals out even handed justice at so much per deal. Inez is the happy mother of several small, towheaded children and delights in watching them making mud pies on the front door step.

And thus we leave them and murmur as we depart, "Honk you sort," which means when translated, "May their shadows never grow less."

(THE END.)

Wit and Wisdom From New Books.

The instinct of small boys is often as diabolically keen as that of a grown woman.—Marietta.

A homely face and no figure have aided many women heavenward.—Naked Truths and Veiled Allusions.

The commonest notion about literature is the notion that it is merely an ornament to life.—Force in Fiction.

Mayhap women would be less religious were priests not men, and men would be more religious were women to serve the altar.—The Art of Life.

Any number of people would be criminals did not circumstances interfere. It depends a great deal on the shape of one's skull.—The Methods of Lady Walderhurst.

There's times when the devil's a saint to what a man is, an' times when a saint might wink at tee divvle, friendly like, out av remembrance of the old days.—Patrick of the Hills.

Men are singularly unoriginal when they make love or pray. Women and the Deity have been perpetually bearing the same thing from the beginning of speech.—The Story of Eden.

There do be three grades av liars. Th' common liar lies f'r fun it is, th' artistic liar lies f'r a pur-pose, an' th' politician lies because it is nature to; he do be built that wa-ay.—Police-man Flynn.

Th' law is made f'r the good people, but 'tis read by th' courts f'r th' other wans. If they's a hold in it, the lawyers shucks a crowba-arin, an' th' judge gives a lie at h'p, an' bechun: th' two they ma-ake th' opinin' big enough f'r to put a locomotive injine through.—Police-man Flynn.

Th' law is made f'r the good people, but 'tis read by th' courts f'r th' other wans. If they's a hold in it, the lawyers shucks a crowba-arin, an' th' judge gives a lie at h'p, an' bechun: th' two they ma-ake th' opinin' big enough f'r to put a locomotive injine through.—Police-man Flynn.

Every woman who loves a man and is anxious about him is sure that if she can be alone with him for a moment he will tell her the truth about his condition. The experience of thousands of years has not taught women that if there is one person in the world from whom a man will try to conceal his ills and aches, it is the woman he loves.—Marietta.

No Cause for Alarm

The Madisonville Hustler's Tuesday edition contains the following: Considerable excitement was aroused on the streets yesterday morning over the report that Bert Ollinger, who recently came here from Princeton to work in his brother Al's barber shop, had small pox.

He was examined by physicians who claim that the disease was really a mild attack of small pox, and was promptly isolated, the patient and his brother being sent to the pest house last night. We feel that any alarm over the spread of the disease is unnecessary, the doctors being inclined to the opinion that the patient had not arrived at the stage of the disease when it could easily be disseminated.

If it is small pox, it is the only case hereabouts and being isolated no further danger need be apprehended. The board of health will take every precaution to stamp it out and no one need feel any uneasiness whatever in coming to town.

Became Obstreperous.

Charles Plackman, (col.,) one of the union organizers, started a row in front of tony Rocco's place with Charles Woodson, also colored. Friday afternoon, and was promptly arrested by Marshal Craig, who, assisted by Officer Johnson, started with the prisoner to the city hall. When they reached the court house square Plackman became unruly, protesting against going to the lockup, but saying he was going to the court house. The officers forcibly carried the prisoner to jail where he was later released on bond. He was tried Saturday morning before Judge Wilson on two counts, committing a breach of the peace and assaulting officers, and fined in both cases \$20. When the offenders were committed Plackman first started a "rough house" at the Klondike saloon and drew a pistol on him, but Plackman had no pistol when arrested.—Huster.

The commonest notion about literature is the notion that it is merely an ornament to life.—Force in Fiction.

Mayhap women would be less religious were priests not men, and men would be more religious were women to serve the altar.—The Art of Life.

Senator Patterson on Woman Suffrage.

United States Senator Patterson, of Colorado, in speaking of woman suffrage, in that State, says:

"What is the trouble with woman suffrage? I remember elections in the old times; I remember seeing on one occasion thirty-one young ladies in white dresses and cheese-cloth sashes, representing the thirty-one States in the midst of a tremendous crush. People are perfectly willing that women should take a share in the most frivolous and objectionable part of campaigns. Why object to their mingling in the graver and more decorous parts? Women with us do no more than they do in other States when a speaker of renown comes. Their presence adds to the decorum of public assemblies. Parlor meetings have now become among the most influential features of the campaign in Denver. The women who take time to vote lose none of their womanly charm and are none the less delightful because they educate themselves that they may be able to teach their sons and daughters the various phases of politics. The exercise of the suffrage adds to their intelligence, merit and worth."

"It is said that equal suffrage would make family discord. In Colorado, our divorce laws are rather easy, though stricter than in the neighboring States; but since 1883, when suffrage was granted, I have never heard of a case where political differences were alleged as a cause of divorce or as a provoking cause of family discord.

"Equal suffrage, in my judgment, broadens the minds of both men and women. It has certainly given us in Colorado candidates of better character, and a higher class of officials. It is very true that husband and wife frequently vote alike; as the magnet draws the needle, they go to the polls together. But women are not coerced. If a man were known to coerce his wife's vote, I believe he would be ridden out of town on a rail, with a coat of tar and feathers."

"Women's legal rights have been improved in Colorado since they obtained the ballot. There are now no civil distinctions existing between men and women. And equal suffrage tends to make political affairs better, purer, and more desirable for all who take part in them."

The fellow who has a collection of girls' slippers never misses a bargain sale at a shoe shop.

Riding a Free Horse.

(Knoxville Sentinel.)

It is astonishing how the public looks on the newspaper as a free horse to be ridden to death.

People will hire a hall, pay money for a band, for lights, janitor, go to a job printing office and buy thousands of dodgers, pay boys to deliver them, pay performers in the entertainment, if they are professionals, or pay some manager to get up the affair and give him a large percentage of the receipts, pay all their bills, in fact pay for everything and every kind of advertising except that which is most valuable to them, to-wit, newspaper advertising. And if the newspaper is unwilling to devote more notice to such entertainments than liberal news notices, it comes in for much abuse. And yet, why should not the newspaper charge for its advertising space just as the owner of the hall charges for his rent, the bill board man charges for the use of his bill boards, the lithographer charges for furnishing the posters, the job printing office charges for the dodgers and the outside parties charge for their services?

The newspaper has only two sources of revenue. One is subscriptions, the other advertising. The subscriptions to newspapers are so cheap that they little more than pay the cost of the daily paper. A newspaper would soon suspend if it did not realize considerable revenue from its advertising columns. A newspaper must print the news in order to hold subscribers. To obtain this news is a very expensive matter.

It must charge for any advertising matter in order to yield a sufficient revenue for these purposes. Somebody has to pay for the fine clothes.

MUST FISH WITH A HOOK.

Only One Legitimate Way to Fish in Loch Mary and That is With Hook and Line.

We wish to state for the benefit of all concerned that there are several laws on the statute books in regard to killing fish in Kentucky by explosives lime gongs, or gill nets the penalty is a fine of not less than \$10 nor more than \$100 and not less than 30 days or more than six months in the county jail, any infringement of this law will be promptly dealt with and all parties are hereby warned to use only legitimate means in catching fish from Loch Mary.

Surgery in Kentucky, Sah.

They laid the Kentucky gentleman on the operating table. His revolver was in his strong right hand.

"Boys," he said to his assembled attendants, "this is going to be a serious affair. But let me tell you somethin'." And he tapped on his revolver. "If I have to go, I'll certainly want company. An' if you make way with me while I am under the influence of your darned opiates, I've got six sons at home who would be only too glad to show you what they think of your lack of skill, in case it does lack. And they'd be prepared to follow you around from King's bridge to Kingdom come until they even things for the loss of their old dad. That's all. Cut away."

Perhaps it is unnecessary to add that the operation was completely successful.

The viceroy of India has announced a detailed scheme for utilizing a quarter of a million sterling subscribed in India for the Queen Victoria memorial in building a great hall of classical architecture of white Penteli marble to be brought from Greece.

Mrs Susan M. Halloway, professor of botany for the last twenty-seven years at Wellsley college, has tendered her resignation. Her retirement withdraws from the faculty ranks the last member who served in the opening year in 1876.

The fellow who has a collection of girls' slippers never misses a bargain sale at a shoe shop.

DOWN IN THE MINES.

Again are the deluded followers of the U. M. W. given courage by the circulation of another one of those monthly reports, "We are going to close down the mines on the first of the month." Is it not a wonder that they don't become tired of the same old falsehood, which has been ringing in their ears for over a year?

One of a family of three men, who up to a year ago were happy and prosperous, can now be seen loitering along the railroad playing cards, ashamed to look his former friends in the face, thus plainly displaying grief and mortification over his own conduct of associating with a gang that has brought poverty to his home.

Reports which have become public property indicate that pay and rations now issued out to the U. M. W. have got very close to the vanishing point. One young man while at work for the St. Bernard Mining Company received about as much for two days' work as he now does in three weeks, which, if we are correctly informed, amounts to that vast sum of \$1 per week, not enough to pay for the victuals he eats. Yet such is life among the U. M. W.'s since new officials took charge, and they dress in an up to date style equal to that of a prince. Somebody has to pay for the fine clothes.

While down in Christian country recently we met one of the chief agitators, who seemed to be in high spirits over what he considered the bright prospects for the miners' union. The cause of this joyful feeling seems to have been that one or two of the machine men at Empire had lately been induced, under false representations of course, to quit work, and by that means he hoped soon to see the mines closed down, but he failed to mention the fact that Sup't Rutland can find two good men to take the place of every one that quits, if he so desires. Strange indeed is how little it takes to cheer one of those fellows up.

Nashville, Tenn., now has a strike on its hands. The carpenters' union has undertaken to dictate terms which to their employers seemed offensive, so a determined stand has been taken against them, and war against the union again declared.

Our foreman said that one day lately he had as many as six union men at work for him, so it does appear that even a dollar per day is now an inducement to those same fellows who when working in the mines could make twice that amount, but they say their guardian fails to clothe them and they are forced to degrade themselves by working for a living.

Heart breaking indeed it must have been for the U. M. W. to have learned that the St. Bernard Mining Company still continues to declare their usual annual dividend in spite of the fact that they have caused to be circulated the report that the mines here have been closed down for over a year. Such knock-out drops is most likely the cause of falling off in contributions. Working people elsewhere wisely conclude that unmitigated liars are unworthy of further support, and a slow process of starvation has been decided upon.

One of the young, prosperous miners at Barnesley last year concluded to become a full fledged U. M. W., of which, as he

idently viewed it, one of the requirements was to threaten and intimidate if possible those who remained at work, so he tried the game, and the result is that he is now in hiding from "Uncle Sam," who warned them against such misconduct.

The fourth oil well has been sunk near Barbourville with a capacity, it is stated, of 1,000 barrels per day. The oil spouts six feet in the air.

The indirect cause of the death of a colored miner last week was indirectly too much red liquor as sometime before the shooting he was warned of his condition by a friend who advised him to sober up. This good advice was unheeded and a fatal shooting scrape ended his earthly career.

Senator Deboe, so rumor goes, contemplates soon engaging in the coal mining business, having lately purchased a large tract of land in Crittenden county, under which is said to be a fine vein of coal, which he will proceed to develop. Now the question arises, will he run the mine himself or allow the U. M. W. to do so without profit?

Who outside of the saloonkeepers and agitators can see any of the benefits derived from the expenditure of \$165,000 by the U. M. W. the past year in their effort to organize this county, while on the other hand thousands can see the great harm done labor since their advent into the county.

The report of the Commission of Labor on strikes shows that in 20 years there have been 244 in Michigan, of which 218 were ordered by organizations. The others were not. There were 1,174 establishments affected by these strikes. In 496 concerns the strikers succeeded, in 141 they succeeded partly and in 538 failed. The report estimates the total loss to employers at \$1,626,000, and to employees \$3,728,640.

The Manufacturers' Record says.

"Kentucky—Coal and Timber Lands, etc.—J. S. Stearns & Co., of Ludington, Mich., have purchased large tracts of coal and timber lands in Kentucky and engaged W. T. Culver, of Ludington, Mich., chief engineer in charge, and Wm. A. Kinney, of Coolidge, Ky., assistant. Contract for mining plant, etc., has been awarded to Southern Construction Co., of Harriman, Tenn."

THE THIRTY-THIRD DEGREE.
The Highest Distinction of Masonry, Conferred Upon Dr. R. H. C. Rhea, of Morganfield, Saturday.

For the second time in the history of Masonry in Louisville the thirty-third degree was conferred Saturday night in the Scottish Rite Cathedral. The degree was conferred on Dr. R. H. C. Rhea, of Morganfield, and Mr. W. W. Dennis, of Louisville. They were elected to the thirty-third degree at the biennial meeting of the Supreme Council of the Scottish Rite, held at Washington last October, but were unable to attend. Mr. Frank H. Johnson, of Frankfort, Ky., Deputy Inspector General of Kentucky, conferred the degree upon Dr. Rhea.

The thirty-third degree is the highest in Masonry. Only those who had attained that distinction were present Saturday night.

You'll never find a pretty matron with a grown-up daughter who wasn't married when she was a mere child.

Smiles win, but tears compel when it's a woman.

SHE FOLLOWED HIS ADVICE.

Husband Gives Pugilistic Pointers to His Wife. Then Tests Her.

A young married woman who belonged to a charity club, and sometimes had to go out alone after dark, was very much afraid of being stopped and robbed. Her husband disliked to provide her with a revolver, but he bought a punching bag, and showed her how to use her fists and where to place the most telling blow in case of molestation.

"Below the belt, mind you," he advised her; "below the belt. Such a blow, if properly planted, will make a man's scrotum hang up there." He soon stepped out in front of you, your course will be easy; if he comes up behind you, swing round suddenly and strike out hard. The robber will repent of his evil ways in a hurry."

That night, says London Tit-Bits, was the bride's late evening, and she happened to be coming up the street just in front of her husband when he saw her and the spirit of mischief took possession of him.

"Wonder if she'd really do as I told her, or if her little fists would hit anyone?" he purred.

The couple later found out. Walking up behind his wife, he laid a heavy hand upon her shoulder. He had no time in which to say anything, and she made no effort in that direction. She simply obeyed his instructions to the letter, swinging round with a suddenness which completely disconcerted him, and delivered a blow that made all the rest of the pugilists stand mute. Then she fled home with the sound and energy of a frightened deer, not even waiting to cast a single glance at the disconcerted man who had as naught, save a desire to help her. She passed the remainder of the evening in alternately weeping over her mistake and hugging her husband's shoulder and wondering why he looked so pale.

The Little Children's Party.

Eddie and Lillie Chatten gave a delightful party at their residence on Main street Tuesday night, to their host of little friends. The children were on their good behavior and acted unusually well. Some of them got sleepy and cried to go home about midnight; others wept because they ate too much candy and cake, and still others because they could not eat any more. After playing "King William," "Gathering Grapes," "Cross Questions," "Peeping at Susie," and "Frog in the Well," the tiny guests, in their dear little slings were marshalled into the dining room where refreshments were served by the charming host and hostess assisted by Katherine Chatten, Bess and Eddie Weller and Annie Anderson, four awfully sweet girls if they did get edgy stuck on their dresses.

After supper Lizzie Mug McGary played ragtime and every one of the children cake-walked. Tommy Traheron could step higher than any one else and he secured the prize. About this time the two hosts had to say so vociferously the other children couldn't hear themselves talk and as it was near midnight and their mamma's told them not to stay late they all went home feeling good and kinder happy and hoping Eddie and Lillie would do the same thing over some time.

The guests were: Misses George Evans, Josie Arnold, Mollie McGary, Mary Rashi, Sadie Atkinson, Carrie and Lucy Cushing, Nellie Carlin, Lessie Moore, Mabel Martin, Edna Dutton, Mrs. John Bowden, Annie and Nannie Ashby, Lizzie Mug McGary, Annie Coyle, Annie Moore, Laurie Victory, Aggie Burr, Mele Pries, Ethie Evans, Mary Gordon, Dickie Fawcett, Annie Anderson, Bess and Eddie Weller; Masters: Dannie Evans, Frankie Arnold, Tommy Traheron, George Mothershead, Ampy Sisk, Frankie Rashi, Earne Rashi, Cuty Johnson, Watty McGary, Charlie Hopkins McGary, Willie Gordon, Riley Coyle and Timmie Fawcett.

Littlepage Killed.

This morning at 5 o'clock Ernest Littlepage a switchman in the yard, while making a coupling has his foot caught by the wheel and fell under the cars and one pair of trucks passed over both legs. He was also hurt inwardly. When Engineer Huff stopped the engine Littlepage's body was found wedged between the end of the car and the truck. He was carried to Dr. Chatten's office where medical attendance was given him but to no avail. He passed away about seven o'clock. Mr. Littlepage was a railroad man of considerable experience, having been a conductor on this division for a number of years, and then going into business at Madisonville. He had only been working in the yard about a week. His wife and mother came over from Madisonville, reaching him before he died. Ernest had won many friends during his railroad life and they all tender their deepest sympathy to the bereaved family. His remains will be laid to rest at Browder's Chapel tomorrow afternoon.

PERSONAL.

Mrs. W. G. Blum and little daughter, Mildred Blum, of Evansville, are visiting her parents, Mr. and Mrs. J. W. Lester.

Lucius Byrne was in Hanson Monday.

Miss Nannie Browning spent the latter part of last week in Madisonville.

Mr. and Mrs. C. R. Martin and children, of Hartford, arrived in the city Saturday afternoon and will make Earlinton their home.

Among the visitors in the county seat Saturday were the following: Messmates E. O. Eastwood, Elmer Lynn, Marion Sisk, Bob Davis and Ed Rule and Misses Edith Rootz, Lizzie Huff and Virgie Rule.

Mesdames Webb, Brown and Withers attended church at Morton Gap Sunday.

Mrs. Withers attended the funeral of Mr. Russell Clark at Madisonville Tuesday.

F. J. Malhausen, the popular Amherst meat market of Evansville, was in the city Tuesday.

Miss Morris and Leura Stodghill and Rev. B. M. Currie were in Madisonville Tuesday.

Messrs. Dan M. Evans and Joseph Mothershead were in Nashville last week.

Miss Tillie Schreiber, who has been making her home here with her sister, Mrs. W. G. Barter for the past two years, left last Friday for her home in Mt. Vernon, Ind.

Miss Edith Waller, of Hopkinsville, is the guest of Mrs. E. A. Chatfield.

Mrs. J. E. Day, was in Madisonville last Friday.

Mrs. Elsie Hibbs is on the sick list.

Mrs. Anderson and little daughter, of Hopkinsville, spent Tuesday and Wednesday with the family of Dr. E. A. Chaffin.

Miss Maggie Stanfield, of Crofton, was the guest of Mrs. Elmo Shaver Sunday.

Master David Fields, of Louisville, is visiting his grandparents, Mr. and Mrs. McGary at this place.

Miss Amelia Hanna left Monday night for Fort Wayne, Ind., where she will spend the summer with her sister, Mrs. J. T. McElpatrick.

Mrs. Lee Jackson, of Madisonville, was in the city yesterday.

Mrs. Wm. Hughes and little son, of Morganfield, are visiting the family of Mr. Wm. McCarley.

Mrs. H. B. Hanson and daughter, of Saratoga Springs, N. Y., were at the home of Mr. Jno. B. Atkinson last week.

Mr. and Mrs. Paul M. Moore spent several days Louisville this week.

Misses Lizzie Huff, Murie Davis, O'Brien and Fairy Shaver were in Madisonville yesterday.

Tribute to the Steady Subscriber.

A Texas editor takes the remainder at the head of his editorial columns:

How dear to my heart is the steady subscriber

Who pays in advance at the birth of each year—

Who cuts down the dollar and offers it gladly.

And casts 'round the office a halo of cheer.

Who never says: "Stop it; I can't afford it!"

Or, "I'm getting more papers than I can read."

But always says: Send it; the family like it;

In fact we think it's a household need."

How welcome he is when he steps in the sanctum.

How we feel our heart throb.

How he makes our eyes dance

We outwardly thank him, we inwardly bless him—

The steady subscriber who pays in advance.

Foley's Kidney Cure if taken in time affords security from all kidney and bladder diseases.

Jno. X. Taylor.

A woman always likes a good hair when it comes to love-making.

Bearre of Ointments for Cancer that Causes the Mercury to Stop.

as mercury will surely destroy the sense of smell and completely damage the whole system when entering it through the mucous surfaces.

and after a short time be used except on prescriptions from respectable physicians, as the damage they will do is ten fold to the body.

Dr. Hobart's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally in a direct form.

Laxative Bromo-Quinine the remedy that cures a cold in one day.

How Are Your Kidneys? Dr. Hobart's Squares Pills cure all kidney diseases. Sold free. Add. Sterling Remedy Co., Chicago or N.Y.

Modern folklore is just plain scandal.

LOCOMOTIVE BLASTS

Operator Elliott went to Nortonville Monday after minnows, and after securing over a hundred, put several large catfish in the bucket with them. On reaching here he found all the minnows either dead or devoured.

Conductor Jim Sparrow has been kicking for a year for caboose 203. The general trainmaster gave it to him Wednesday to go out on the 10:30 a.m. train. He said that Jimmy was so busy looking at his new cab he couldn't see the step and his lunch went one way, his hat the other and Jim went west and sat down so violently he tore his pants.

The bill engine from New Empire was up this week to be washed out.

The boys say they will be glad when blackberries get ripe so they will have something to eat while laying in side tracks along the line.

Operator Daniels was in Hopkinsville one day this week.

Yard clerk Steeds paid a flying visit to Gouletts on Wednesday.

E. M. Orr will try his luck in the parasol art on Loch Mary Friday.

Brakeman Miles Cannon has been transferred to Guthrie night yards.

Engineer J. J. Moynihan went through on his regular run Tuesday.

Tom Porter and Tom Mitchell are the onlyest fishermen; if they can't get them one way they will another.

Dispatcher Jno. Devney went fishing Wednesday and caught about two.

The crossing gate at Guthrie is again O. K.

Cheif Dispatcher Ed Wise is trying to raise a garden this year. He has the most of it planted in onions.

Trainmaster Sheridan was out of town one day this week.

Sobres Items.

We are having fine weather now of which the farmers are very proud.

Last Saturday was quite a busy day in Sebres. Our streets were crowded all day and business good.

Messrs. Williams and Landrum have purchased the stock of drugs formerly owned by Mr. Peter Counter and will conduct a business at the same stand.

Frank Sweeney and little daughter, of Frank Hall are visiting him of Frank Hall this week.

A sorrel horse, star in forehead, blind in his left eye, right hind foot white, seven years old. Finder will return same to E. W. Finkland, Richland, Ky.

The social climber who has wasted his inheritance in golfing outfit is now suffering from ping pongitis, a disease that is said to be prevalent among Americans, particularly.

Foley's Honey and Tar contains no opium, and will not constipate the bowels, will rectify prompt relief.

JOE C. ATLEY, Lowell, Mass.

The new \$5 national bank notes bear the signatures of Benjamin Harrison, theodore Roosevelt, and the new \$10's that of William McKinley. To the acquisition, the \$10's are the more attractive.

A LETTER TO ROOSEVELT.

An Open Argument Against the
British Horse and Mule Traffic
In the United States.

THE TREATY OF WASHINGTON QUOTED.

Attention Called to the Insistence of
Great Britain Upon the Observance
of the Treaty Immediately
Upon Our Declaration of War
Against Spain in 1898.

Chicago, April 19.—Peter Van Vlisingen, who has been one of the most active friends of the Boers in Chicago, has sent to President Roosevelt an open letter advancing an argument that the British traffic be limited to the United States. He declares that the traffic is violation of the treaty of Washington.

"Article 6 of that treaty," the letter reads, "lays down three rules by which the arbitrators are to be governed. The second rule declares 'a neutral government has the right to permit or prohibit belligerent to make use of its ports or waters at the basis of naval operations against the other, or for the purpose of renewal or augmentation of military supplies or arms or the recruitment of men.'

Further along, the letter says:

"Great Britain made no scruple of asserting the terms of the treaty of Washington against this country upon the first and only occasion when our country was at war with a foreign state. April 26, 1898, the day after war was declared between the United States and Spain, Queen Victoria issued a proclamation of neutrality insisting upon observance of the treaty."

"In this proclamation Great Britain insists that her ports and waters shall not be used to abet the military activity of belligerent powers, and we now request the enforcement of this rule."

By the classification prepared by the state department, published by Secretary Long, June 20, 1898, in his "Instructions to the diplomatic corps and consuls," General order 162, paragraph 19) horses are designated as "absolutely contraband" of war. If additional arguments were needed to prove that horses have been considered contraband of war by the United States government, the following instances in which they have been so classed might be cited:

In the treaty between the United States and Bolivia (treaties and conventions, 1899, p.105), Art. 17, horses with their furniture are comprehended as contraband of war.

The following other treaties a similar specification is made:

Treaty between the United States and Brazil (treaties and conventions, 1889, p.105), Art. 16.

Treaty between the United States and Colombia (treaties and conventions, 1899, p.186), Art. 17.

Treaty between the United States and Hayti (treaties and conventions, 1899, p.151), Art. 29.

Treaty between the United States and Peru (treaties and conventions 1899, p.191), Art. 18.

Treaty between the United States and Sweden and Norway (treaties and conventions 1899, p.1142), Art. 9.

Mr. Van Vlisingen has been at work for months preparing material for this letter.

MILL AND LUMBER BURNED.

Costly Flames at Quincy, Ill.—Fire which originated yesterday afternoon in the Gem City Sawmill Co.'s plant, destroyed property value \$100,000, and caused the death of one woman from shock. After consuming the sawmill and planing mill the fire burned over nearly ten acres piled with lumber. Two of the city fire stations were abandoned in the flames by the men and converted into molten metal. The fire also burned parts of two bridges on the Carthage branch of the Burlington road, together with several straight and crooked Western Union and Illinois Central poles and wires for half a mile along the Burlington road. The stables of the sawmill company, with several horses were burned, also a large number of cows, owned by Mr. A. C. Connerman, of St. Louis, and a number of residences.

FIFTY DWELLINGS BURNED.

Sixty Families Rendered Homeless in Kansas City, Mo.—One Person Fatally Injured.

Kansas City, Mo., April 21.—A destructive fire swept the southwestern part of the city yesterday, laying waste a section of dwelling houses almost a quarter of a mile long and a block wide and doing damage to the amount of \$100,000. John H. Smith, of Quincy, Ill., a spectator, was fatally injured by a falling piece of iron, and Edward Bennett, a fireman, was overcome by heat.

Food Prices in Washington.

Washington, April 21.—The question of food prices here as elsewhere, is becoming a serious one, and housekeepers are much alarmed over the possibility of a further increase in the cost of living, which is now higher than it has been known in many years.

This Weeks Purchasing News

AT THE

GRAND LEADER.

NOW that the spring days are upon us, the need of spring and summer clothes asserts itself, as well as the refurnishing of the home, if not throughout possibly a new carpet or matting to replace the badly worn ones; if it is, we will be glad to show you our line of these goods, as we can safely say, that the styles shown by us this season cannot be duplicated elsewhere, especially at the prices quoted, as we are conceded by the prudent buyers to have the **LOWEST PRICES** on these goods

Our line of wash goods we wish to call your particular attention to this season, as we have on display for the season one of the best selected lines of this goods in the city, of every conceivable weave that has been adopted by fashion, and at prices to please everyone.

We are sole agents for the above pattern—all seams allowed. Only 10 and 15c. None higher.

CARPETS,

MATTINGS,

TRUNKS.

Our Ladies' Ready-to-wear Department is filled with all the good things to be found. We scoured the markets from end to end to find the right things and at prices where we knew that no competitor could meet them.

We are offering four of the greatest values in Rainy-day and Dress Skirts for this week that are not to be had elsewhere for the little money that buys them here.

The Hosiery line this season shown by us contains some of the best values ever handled by us; also the summer underwear is now in display and ready for your inspection. All the novelties of the season are on hand and they take a very conspicuous position in our line this season and at prices to please all.

Dress Trimmings, Laces, Braids, Galloons, and in fact all the dainty things used to decorate the ladies toilette this summer are shown in all styles.

A Strong Fortification.

Fortify the body against disease by Tutt's Liver Pills, an alterative cure for sick headache, dyspepsia, sour stomach, malaise, constipation, jaundice, biliousness and all kindred trouble.

"The Fly-Wheel of Life." Dr. Tutt: Your Liver Pills are the fly-wheel of life. I shall be grateful for the accident that brought them to my notice, like as if I had a new lease of life. Fairleigh, Platte Cannon, C. Tutt's Liver Pill.

It now seems that old Kentucky will be present when the great St. Louis Fair is thrown open to the world. The Louisville Commercial Club has set actively to work to secure a creditable Kentucky exhibit at the Louisiana Purchase exposition. A committee of thirty-four representative men have been chosen, representing all the leading interests, to take the matter in hand. Each county will have a chairman, and every district an organization. The president of the Commercial Club has received from all parts of the state letters commanding the movement and promising hearty support. From the encouragement received, it is believed there will be no difficulty in raising a fund of \$100,000 with which to provide a suitable building and exhibit.

The faces of the old soldiers are turned Southward. Far away, within the domain of the Lone Star State, they already see the camp-fires of the coming Reunion. They will gather in Dallas this week from all sections of the Southland—those old gray veterans, who less than forty years ago, fought so gallantly for what they believed to be right—but who today would protect just as willingly the honor of the one flag of all us. The day is not far off when these annual reunions will have been consolidated into the one final reunion above and the earthly reunions will be no more. Therefore gather together, you who remain, relate again the oft told tales, and enjoy these pleasures while you may. The final roll call is not far distant.

London is a poor location for the coronation. There are not enough mansions in the city to accommodate the American millionaires.

"I stood in a draught with my coat off and caught this cold," says the subject. He need not worry, however, if he follows his act of folly with an act of wisdom. Soak the feet in hot water, a few spoonfuls of Perry Davis' Painkiller will take a teaspoonful of Painkiller in hot sweetened water at bedtime and be thankful that you have found a way to break up a cold. There is one Painkiller, Perry Davis'.

Some of the New York restaurants now have "smoking rooms for ladies." They should be more explicit and label them "smoking rooms for perfect ladies."

"I Never Knew Painkiller to Fail." With the latter locution, I thought, where the bottle? There, I thought so; it is not Perry Davis' Painkiller at all, but something the druggist must have put in there and wasn't noticed; I have used Painkiller for years for diarrhea, cramps and stomachaches and it never failed."

AMERICAN WOMEN AT THE CORONATION

They Will Shine
Conspicuously
Both
In the Official
and
Social Functions

WHEN King Edward VII of England is crowned at Westminster abbey next June, American women will shine conspicuously in the gorgeous pageant. No less than three hundred and fifty Americans will by right of royal birth appear in the kinetic train. Eleven of these are princesses of the realm, and two gain the honor by virtue of being wives of the eldest sons of peers. Three of the maidens wear the coronet of duchesses, one is a marchioness, four are countesses, and three bear the title of baroness.

Besides these will be the ladies connected with the diplomatic corps and the special embassy which will represent this country at the coronation.

DUCHESS OF MARLBOROUGH

Many noble, titled and otherwise, will be prominent figures at the social festivities which will make the coronation season the most brilliant that America has ever known.

America's fair representatives in the ranks of the peeresses are led by Consuelo Vanderbilt, who became the Duchess of Marlborough in 1895. By marriage to the Earl of Pembroke, New York, dowager Duchess of Manchester, who was for many years the only American duchess in the peerage, and Helen Zimmerman of Cincinnati, who became the Duchess of Manchester two years ago.

The Marchioness of Dufferin and Ava is the only American wife of a British marquis. She was Miss Florence Davis of New York and went to England to marry the Marquess of Dufferin and Ava. He only succeeded to the title a few weeks ago on the death of his father, the Marquess of Dufferin and Ava.

Of Lady peeresses Lady Essex and Adela Grant of New York, and was married to George Drexel, the seventh earl, nine years ago. Lady Craven was also a New Yorker, Cornelia Bradley Martin, whose marriage to the Earl of Craven a few years ago was one of the most brilliant social events of the season. Lady Dungougham was Miss Elena M. Grace, niece of William R. Grace, formerly mayor of New York. Lady Dougongham is in London twelve years, but was only a few months ago that she became the bride of the Earl of Dungongham.

The fourth countess on the list is Lady Stratford. She was Miss Cora

of the peeresses.

The American women who are members of the British nobility, but who are not included in the official list promulgated by the authorities having the matter in charge, is the Dowager Duchess of Connaught, the late Lady William Bentinck. She was a daughter of Commodore Price of the United States navy. She forfeited her prerogative as a peeress of the realm by marrying after her death to the eighth Duke of Argyll, whom the late Lord William Bentinck, was in the eyes of the law is a commoner. No English woman of noble birth holds a senior position in London society than Mrs. George Cavendish, the former Lady Cavendish Churchill, originally Miss Jennie Jerome of New York. Lady Naylor-Leyland, who was Miss Jennie Chamberlain of Cleveland, is also a social favorite. Perhaps none is more popular or more highly esteemed in the best English households than Lady Bache Cunard, who was Miss Maude Burke of San Francisco. Other titled American women are Lady Gray-Egerton, formerly Miss May Egerton, Lady Frances Margaret Vernon, widow of Sir Charles Vernon, and Mrs. Francis C. Lawrence of New York; Louise Melissa, countess of Oxford, daughter of Mr. D. C. Corbin of New York; Mary Viscountess of Falkland, widow of the Marquess of Bute.

A great luminary, which is being organized to take place in London in the first week in July in aid of a hospital for sick children, is to be called the Anglo-American Bazaar. It is intended to call in the best-known bazaar, since most of the well-known American women in London are taking a very active and prominent part in the arrangements.

Sophia, daughter of Judge Smith of New Orleans. She married Samuel J. Colgate, the wealthy soap manufacturer and banker of New York, who left her a widow in 1893 with a fortune estimated to be \$10,000,000. In the same year she became the mother of Lady Abinger, the first in the list of baronesses, may not take advantage of

Let it Alone.

Scott's Emulsion is not a good medicine for fat folks. We have never tried giving it to a real fat person. We don't care. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. It is natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better—you eat better and you weigh more. It is quiet worker.

SHORT LOCALS.

Go to J. M. Victory's for Groceries.

Don't forget the Y. M. C. A. meeting at the M. E. Church, South, next Sunday afternoon at 2 o'clock.

The protracted meeting at the M. E. church south has been postponed until further notice on account of the inability of Bro. Curry to secure a preacher at this time.

The business men of Earlinton are waking up to the fact that the more they advertise the more trade they get. Consequently we are getting in new ads every week and still have room for more.

Mr. Ernest Newton has closed out his grain and hay business and is at present connected with the firm of Walden & Eades. Ernest will be pleased to have his friends call on him at his new place of business.

No seining will be allowed in the lake as it destroys thousands of eggs and a great many of the small fish parties who have been seining for perch, crabs & other things are hereby notified that the practice must be stopped at once.

W. S. Corey says "Bro. Mitchell is the most persistent fisherman he has ever seen." Mr. Corey states he left him on the lake one evening at dark and found him there next morning at daylight consequently he drew the conclusion he was fishing all night.

Mack Long, while picking coal at No. 11 mine Monday, received a very painful injury on the calf of his leg, by having it mashed by a falling lump of coal. Dr. Chatton was summoned and the injury proved not to be of very serious nature. We hope to see him out in a few days.

Mr. and Mrs. Albert Keown are moving into the new house lately erected on railroad street. There have been several changes in Earlinton this week. Mrs. Julia McGrath and family left for Nashville Sunday afternoon where they will reside in future, they have a host of friends here who regret to see them leave and wish them well in their new home.

Prof. R. G. Cox will give a home talent musical at Temple Theatre Friday night, May 6th. The program will be given entirely by Earlinton people. There will be a full chorus and orchestra and will render some selections from comic opera. The program will also intersperse with solos, duets, madrigals, comic selections by children and May Pole Waltz by twelve little girls.

Last year we suggested the idea of erecting a private bath house on the banks of beautiful Locust Mary, we still think it would be just the thing, but we have not yet secured the material to be used in building. After reviewing the remains of the boat house and the work of the vandals thereon we offer the suggestion if a bath house is erected it be made of corrugated iron with burglar proof doors and windows.

We notice a health ordinance has been issued by the mayor and posted in several places, plain as well as distributed over town. This is a matter of great importance and should have prompt attention, as the health of yourself and family depend greatly on the cleanliness of your, and your neighbor's premises. One neglected outhouse can breed sufficient disease during the summer months to spread over the entire town, consequently we urge you not to neglect this matter.

There is a rather complicated machine in front of W. C. McLeod & Co.'s, intended for a mole catcher, yesterday there were two or three boys and a man looking at it and wondering what it was for, presently another man came along and stopped. One of the boys said "mister what is that thing for?"

"Don't you know what that is?" he replied, "that is a new kind of a fish hook."

"Well how do you fish with it?" asked the boy.

"Just pull the spring back, put a live minnow in the fork and throw it in the water, when the fish bites it looses the trigger and sticks the hook through the fish."

And the boys went inside to inquire the price of the fish hook.

When Max O'Rell tells people to remain childlike as long as you can, he probably means childlike—which doesn't sound very different to a Frenchman.

Women's looks are good enough books for a man past 40.

A three-times widow is mostly like over-ripe fruit.

A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disorder called LIVER.

THIS IS A FACT which may be demonstrated by trying a course of

Tutt's Pills
They control and regulate the LIVER, They bring shape and buoyancy to the mind. They bring health and elasticity to the body.

From the way they are fighting the Chinese rebels must have stood around and watched the armies of the allies do things two years ago.

Breastful Attack of Whooping Cough

Mrs. Ellen Harrison, of 300 Park Ave., Kansas City, Mo., writes as follows: "Two children had a severe attack of whooping cough, and one of them in the naroxysms of coughing would often faint and bleed at the nose." We tried every remedy and far. Then we called in our family doctor who prescribed Foley's Honey and Tar. With the very first dose they began to improve and we feel that it has saved their lives." Refuse substitutes. Jno. X. Taylor.

Horse hunting, bonnet hunting and octopus hunting are a few of the occupations of the present season.

Good for Rheumatism

Last fall I was taken with a very severe attack of muscular rheumatism which caused me great pain and disability. I tried every remedy and general prescriptions and rheumatic cures, I decided to use Chamberlain's Pain Balsam. It worked wonders and I am now well again. After two applications of this remedy I was much better, and after using it I am now well again. —SALLIE HARRIS, Salem, N. J. For sale by St. Bernard Drug Store, Earlinton; Ben T. Robinson, Morton Gap; Geo. King, St. Charles.

Another tunnel is to be built in New York. The island is destined to become a veritable gopher camp.

"A neighbor ran in with a bottle of Chamberlain's Colic, Cholera and Diarrhoea. He said, 'Why, my son is suffering with severe cramps and was given up as beyond help by my regular physician, who stands high in his profession.' And I responded, 'Take doses of it, my son regained consciousness and recovered entirely within twenty-four hours.' —Dr. T. C. Crawford, Mt. Crawford, Va. This remedy is for sale by St. Bernard Drug Store, Earlinton; Ben T. Robinson, Morton Gap; Geo. King, St. Charles.

ABOUT BOY SINGERS

FRESH YOUNG VOICES ADD SWEETNESS TO EASTER ANTHEMS.

Popularity of Vested Boy Choirs in Church Services Increasing—Why They Are Preferred to Mature Singers—Best Paid Boy Chorister.

Easter, day of Christian rejoicing, is made more festive by a festival of song in church services. The vocal features are supplied by the choirmasters, and it may be said that the climax of song as a factor in divine worship is reached on this occasion.

Boy voices are also becoming more popular in church choirs. In 1820 Trinity Church, New York, following the English idea, introduced a vested boy choir of boys. For many years this choir was the chief choir in this city.

The period of change in a boy's voice is marked by a temporary loss of control over the larynx, caused by uneven development of the cartilages and muscles.

The voices of boys skillfully trained resemble in quality the voices of women. The chief difference is that women produce a more mature quality, while boys sing with more freshness, elasticity and buoyancy. It is this freshness and buoyancy that make the voices of boy singers so pleasant and popular.

The pay of these sweet little singers is seldom large, an ordinary choir boy's pay is from \$100 to a year and the soloists only a few hundred. Occasionally one especially gifted will receive \$1,000, but this is rare.

Thomas Kerford, of New York, is a twelve year old, is at present the best boy singer in the country. He is soloist at Grace Episcopal church, Brooklyn. A year ago young Kerford was singing in a Salem (Mass.)

church.

This is not a gentle word—but when you think how liable you are to be paid for it, you realize why it is remuneratively known as a remedy universally known and a remedy that has had the largest sales of any medicine in the world. The cure consists of Consumption and Throat and Lung troubles without losing its great popularity all these years.

Attention is called to Bosch's German Syrup. There are so many ordinary syrups, made by druggists and others that are cheap and good for light colds perhaps, but for severe Coughs, Bronchitis, Croupous and other diseases of the lungs where there is difficult expectoration and coughing during the nights and mornings, there is nothing like German Syrup. It is a safe remedy for all druggists in the civilized world.

Master Kerford has a manager, Le

land Standard Model of San Fran-

cisco. Mr. Kerford is a son of the

late Leiland Stanford and son of a mil-

lionaire in Alameda. A year ago he

was in Salem and one Sunday went

to the little Episcopal church there

which he recognized as one of man's

most powerful, sweetest and marve-

lous range. When he asked who it was, they said, "One of the three Kerfords." And when he was later introduced to them he found that they were his own cousins.

"Three Kerfords?" he asked.

Established institutions in Salem and not to be separated from Grace church. The eldest was Alfred, then thirteen; the youngest was Charles, aged eight, and the third, Leiland, was eleven years old. They were the most wonderful musicians of the three. They all received 35 cents a Sunday for their services.

At once Mr. Kerford took Master

Kerford to the church.

Then Kerford heard of the three boys.

"I expect to find them all for a month, but before the first week was over the cruelty to children society had presented their appearing.

At the end of the year the family

moved to New York. The boy sang one Sunday at the First Baptist church in Calvary

church, and James T. Johnson, the

conductor of the church, offered him

the position of soloist at church as of

fördering the best advantages.

Within a week he was known all

over Boston. He was in demand at

concerts, churches and private houses.

Then Kerford heard of the three boys.

IS ON HIS NATIVE HEATH.

President-Elect Tomas Estrada Palma of Cuba Once More on Cuban Soil.

ENTHUSIASTIC RECEPTION AT GIBARA.

The Place Which He Left Twenty-Eight Years Ago An Exile in China Receives Him With Open Arms With Every Manifestation of Joy.

New York, April 22.—Gen. Tomas Estrada Palma, president-elect of the Cuban Republic, who arrived on the

sojourner Admiral Farragut from Old Point Comfort, Va., was greeted, says a Gibara (Cuba) dispatch to the Tribune, with great enthusiasm. Gibara's population of 6,000 was augmented by as many more who came from all parts of the island, from Havana to Santiago, to pay homage to a man they love. During the voyage the weather was magnificent, and Gen. Palma's forebodings of sea sickness were not realized.

When the vessel was anchored in Gibara harbor a salute of 21 guns greeted President Palma. His face brightened at the scene before him. How different was his return to Cuba from his last chains and camp life with his health rapidly failing, with roses. The harbor was a kaleidoscope of color and animation. From every craft flew the flag of Cuba Libre and the Stars and Stripes. Old friends who had left Gen. Palma in the ten years' war, or shared with him the hardships and sufferings of many campaigns, came on board and embraced him. Many were tears. The vessel was soon crowded with men, women and children representing different cities, who came on steamers and launches which were decorated from stem to stern, from the mast to the water line. After a quarter of an hour of informal talk Gen. Palma and his party went ashore in his launch. It was when he put his foot on shore at the pier that the pent-up enthusiasm of his compatriots broke forth in earnest. There were rounds of cheering by the crowd, and the first note of the president-elect, which could be heard clear across the bay. Major Gómez spoke a few words of welcome, and then proposed "three cheers for the first president of the Cuban Republic." They were given with a roar.

With the village band playing Cuban hymns, a procession was formed to the principal street, whence the president-elect walked. The members of the committee were drawn in carriage by a score of stalwart Cubans to the city hall. Every place of vantage along the route was filled. Men, women and children crowded and pushed to see and shake the hands of the veterans.

Archers had been built across every street which led to the city hall. Not a house in all Gibara was without decorations of some sort.

For every tree the flag of Cuba, and from almost as many were displayed the flag of the United States, while the red and yellow colors of Spain were conspicuous on the Spanish houses. The Spaniards joined in the welcome, and the flags of red and pale gold figured prominently in the decorations. A procession, headed by a detachment of the Tenth United States cavalry, commanded by Lieutenant Hause, made up of local civic societies, school children, etc., then proceeded with the Palma party to the city, and then lined up on each side to allow his carriage to pass.

DEAD OR FATALLY WOUNDED.

A Four-Handed Battle Between Cattlemen That Will Prove Fatal to All of Them.

Vinita, Okla.—April 22.—In a fight between cattlemen west of Collinsville, in the Cherokee nation, William Phillips was killed instantly and William Phillips, Jesse Skidmore and Lige Johnson were mortally wounded. All are prominent cattlemen, who own pastures near Odogah, not far from Collinsville. The fight was the result of an old feud between Skidmore and Phillips, which had its origin in a court contest over some grazing land.

The Search for the Burenian.

London, April 22.—The admiralty has issued a British third-class charter Belton to the British-class cruiser Thame in searching for the missing Allan line steamer Hironian. The Belton will cover 2,100 miles of the northwestern part of the Atlantic.

American Tuberculosis Congress.
New York, April 22.—The American congress of tuberculosis will meet in this city on May 14, 15 and 16. The sessions will be held in the morning and afternoon.

CONDITION OF THE CROPS.

The National Weather Bureau's Weekly Summary of the Crop Situation.

Washington, April 23.—The weather bureau's weekly summary of crop conditions is as follows:

The week ending April 21 was warmer than the average in the Pacific coast and Rocky mountain regions, in the Mississippi valley and the northern prairie states; it was cool in the middle Atlantic and southern states and decidedly dry over the greater part of the central valley and middle Atlantic states; it was badly affected by rain in the Ohio valley, the Rock River districts and central valleys, and would prove beneficial in the middle Atlantic states, while excess of moisture has hindered farm work in portions of the central valley. The week ending April 21 was marked by abnormally high temperatures in Kansas and Nebraska, intensifying the drought conditions in eight states. The general weather conditions, although not contributing to rapid advance of vegetation, were very favorable for farming operations in nearly all parts of the country.

The progress of corn planting has been rather slow, except in Minnesota and the Dakotas, the work having almost finished in the central and western grain districts. A large acreage of ground is prepared for planting in the states of the central valley, and some planting has been done in southern Illinois, but little in Ohio river. The early planted corn is coming up in southern Kansas, where cultivation has begun.

Winter wheat has continued to make good growth and, on the whole, is in less promising condition in the principal winter wheat states of the central valleys at that close of the previous week. Moisture and mild temperatures have aided the growth of the crop throughout these districts and also in the middle Atlantic states. The outlook in California continues promising and the crop has experienced improvement on the part of the Pacific coast.

The germination of early sown spring wheat, over the southern portion of the spring wheat region, has been slow and seedling has been retarded by freezing in North Dakota. The Missouri, river valley, and Minnesota are doing nicely, and seedlings began on the 15th. Some resowing will be necessary in Minnesota as a result of the dust storm of April 10 and 11. Seeding has progressed favorably on the north Pacific coast.

The German government has been represented in the U.S. by General von der Goltz, who is in command of the fortifications of the West Point military academy by Major-Generals Corbin and Young and Brig.-Gen. Wood.

President Roosevelt has taken out some extra life insurance. The amount is \$30,000 and was placed in one of the large New York companies.

Joseph Schneider, aged 60, a well-known citizen, was found dead in his home in Quincy, Ill. He had hanged himself.

The St. Louis World's fair management has been notified that the sultan of Morocco has expressed a desire to attend the World's fair with a royal party.

Major Rathbone, ex-director of Cuban posts, under sentence of ten years' imprisonment for misappropriating post office funds, has been released on bail pending appeal. He was serving his time in the Kansas City (Mo.) fire department, having been removed by Mayor Reed and First Assistant Chief Edward Trick appointed to succeed him.

Saved in the Confederate Navy.

New Orleans, April 19.—A private telegram from New York announces the death of Capt. Samuel J. White sides, a well known capitalist of San Francisco, who owned large interests in New Orleans, Alabama and Georgia. He was 71 years of age and served in the confederate navy.

Gen. R. E. Lee's Secretary.

Baltimore, Md., April 22.—Gen. Charles Marshall, military secretary of Gen. Robert E. Lee during the civil war, died yesterday at his home in the city. Saturday night.

University of Missouri Won.

Lawrence, Kas., April 18.—Representatives of the University to-night won the annual debate with the University of Kansas, the debate being on the subject of mineral ownership. Missouri taking the affair.

W.H. Knowles, Iowa Dead.

Oskaloosa, Ia., April 19.—Geo. B. Bently is dead at his home here from dropsy, aged 70. He was one of the builders of the Iowa Central railroad, was largely interested in the development of coal fields.

Very good progress has been made in cotton planting, except in the state of Tennessee, the Carolinas and Florida, and planting is nearing completion over the southern portion of the cotton belt. Over most of Texas cotton is in full flower. In the eastern and central Mississippi valley, plants are doing well, but in Virginia, the Carolinas and Kentucky they are small, and in places irregular. Some transplanting has been done in South Carolina.

Topic For Week Beginning April 27.
Contributed by Rev. H. H. Dixie,
St. Louis—Editor of "The Christian Endeavor," Vol. III, 1-21.
(Union meeting with the Juniors.)

Samuel in the Old Testament and Timothy in the New Testament are the typical examples of the love of childhood to faith in God and to the service of God. They stand out prominently as illustrations of the blessed results of early consecration—that is, for God, for our country, after life, for health and nurture. The busy men and women of our Junior Endeavor societies can do nothing better than to frequently turn to the story of Samuel's life and read again the signs of his pious piety, his heroic service to God, the depth of his response to God's call when only a child and of his years of fidelity and faithfulness in his after life. It is a charming story and one that should be told over and over again to the life of any boy or girl who wants to be a Christian and a Junior Endeavorer.

J. Samuel was carefully prepared for the call of God. He was the child of pious parents, and Hannah and Simeon were an answer to a prayer made to a vote. In fulfillment of that vow his mother very early placed him in the temple of God to be raised for the service of God and visited him once a year. This is a simple and laudable workmanship of heavenly hands. With such preparation it was little wonder that God called Samuel to His service and that Samuel promptly responded to the call. In those days when the church was having difficulty in finding candidates for the gospel ministry if there were more Hannahs to consecrate their Samuels to the service of God in His temple and to raise them with care and obtain in view such a dependable state of affairs would not exist.

God's call came to Samuel at a very early age. Samuel was probably only about ten years old when he heard when God called him to a special and important mission. At first he did not recognize the voice of God. How often this is the case! Sometimes for years we grope about in the darkness, without recognizing the voice of God. We grope until we hear the voice of God that calls us to His work. But when God wants a man His voice is recognized sooner or later. But if God is calling us to enter the gospel ministry, how may we know it? Eli received the voice of God in Samuel. Who will reveal it to us? These practical tests will probably answer this question: (1) An overwhelming desire to preach the gospel for Christ's sake and for the salvation of the unsaved. (2) A desire to serve God in His kingdom. (3) Opportunities. But we may rest assured that if God is calling us He will make the opportunity for us. Samuel had the desire and ability, and the opportunity came.

Samuel answered the call of God. Willingly and enthusiastically he entered the service of God and gave His entire life to His service, and God crowned His life with success and with honor. If we desire this kind of opportunity, God is calling us to His service, especially in the gospel ministry, let us respond to His call and dedicate our lives to this glorious work. There never were better opportunities for young men in the gospel ministry than today. Schools of law, of medicine, of science and art are overcrowded. This is, however, far from the case in our theological seminaries. Here we find a failure of the ministry that is not overcrowded. There are not too many churches. God and His church today call for workers as clearly as God called for Samuel's service. The great Christian denominations stand here to help others in propagation all those who, having piety and ability, apply at their doors. Who will respond? Young men, Junior boys, is not God calling you? If so, will you not imitate Samuel's example and respond?

BIBLE READINGS.

Deut. v, 16; II Kings xxii, 1-6; Ps. i, 6-8; VIII, 1-8; Prov. i, 8-10; vi, 20-22; Eccles. xii, 1; Mark iii, 14; Eph. vi, 13; Col. iii, 20; II Tim. i, 3-6; II Cor. 10-17.

Sympathies With Others.

Because we have sorrows of our own we must not be indifferent to those of others. Great afflictions and sorrows entitle us to personal grief and suffering, and it helps a fellow feeling for another's afflictions. True Christians are drawn all the more closely through common trials. As we sympathize with others, their sorrows we endure, so do others share their tribulations, and it becomes us to give out as well as take in kindly consolation and assistance. Our Saviour suffered, but it was that He might be all the more able to sympathize with and aid His people—Presbyterian.

The Song of the Heart.

A song in the heart is better than a grand piano in a golden parlor. Real riches cannot be measured out in coin. We are rich in what we are. People are troubled because they live in back streets, but the alley is as near heaven as the avenue—Dean Hodges of Cambridge, Mass.

God in the Church.

It is true that God is found in our homes and in our offices as much as in church, but it is also true that if we do not go to services we shall lose Him in church, we shall not see Him, still less worship Him, anywhere else.—Moravian.

The Busy Man and the Loafer.

The busy man may be tempted by one devil, but the loafer is tempted by a dozen.—Church Standard.

Asleep in Jesus.

"Asleep in Jesus"—words of calm. That permeate our souls with calm; That promises that our loved ones sleep. That Jesus is His bed; and all the hours of sorrow, deep, unknown? "For we sleep, we wait, we know. How could we bear the world so deep? Just for the promise of such sleep?" —Philadelphia Ledger.

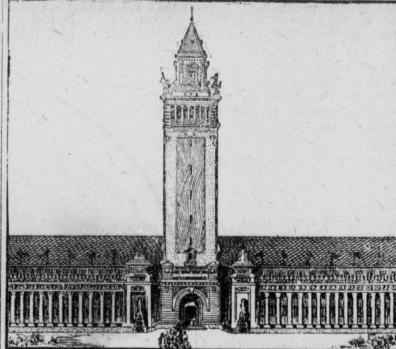

There have been times when the wild heart has been more merciful than human beings, and spared the woman cast to them in the arena. It is astonishing how little sympathy women have for the suffering. The maid sees the maid with the signs of suffering she recognizes so well, but she does not lighten the sick girl's load by a touch of her hand. The woman sees the pallor and exhaustion which mark the family weakness, but allows no time for that. It is a pity.

Doctor Pierce's Favorite Prescription makes women strong and sick well, by curing the womanly diseases, removes the赘肉 (superfluous flesh), and cures inflammation and ulceration, and cures female weakness.

"When I first commenced using Dr. Pierce's Favorite Prescription with Mrs. W. C. I was suffering from rheumatism in my right shoulder. I was unable to sleep at night, and the pain was so severe that I could not sleep for two years, then I began taking your medicine, and I took four bottles of Dr. Pierce's Favorite Prescription (one of Dr. Sage's Medical Discovery) and I am now well. Dr. Sage's Favorite Prescription is the best medicine I ever used. I took four bottles of Dr. Sage's Cancer Remedy, so I have no fear of cancer. I am now well enough for your kind advice, and the good your favorite Prescription makes weak women strong, sick women well. Accept my thanks for your kind advice which works wonders for weak women."

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

A Portion of the Manufactures Building.

For the Louisiana Purchase Exposition at St. Louis in 1904.

This great building, one of the main structures of the great fair, will cover 14,000 square feet on the main structure, being one of the buildings on the entrance to the fair grounds. The building will stand at the left of the main entrance, and the visitor will get as he enters the grounds by the main entrance. Balancing the tall tower will be a tall tower on the right side of the building, and the square tower on the left. The main entrance, on the right of the main entrance, on the building devoted to Varied Industries.

It will be a noble composition developed in the Corinthian order of architecture, and will be in the main structure, being one of the buildings on the entrance to the fair grounds. The building will be 14,000 square feet on the main structure, with a depth of 525 feet on the main building. Carrere & Hastings are the architects.

While this building will be by no means the largest, the Agricultural Building covering a much greater ground space, it will be one of the most important.

It will be a noble composition developed in the Corinthian order of architecture, and will be in the main structure, being one of the buildings on the entrance to the fair grounds. The building will be 14,000 square feet on the main structure, with a depth of 525 feet on the main building. Carrere & Hastings are the architects.
